

DO A MITZVAH!!

NexGen in Boca Raton is saving lives through cellular therapies and in need of donors ages 18 – 50 years of age to donate white blood cells or stem cells to support research and development, clinical trials and the development of the next generation of cell and gene therapy treatments. Donors will be compensated for their time, receive two free physicals per year and must have flexible availability to donate. To learn more visit NexGen.giftoflife.org or contact Traci at tackerman@giftoflife.org or 561-982-2939.

When registering please select referral source Traci Ackerman.
